North Summary (by North Guber Craig Bush): On a lovely Sunday afternoon, a group of students went to the Ronald McDonald House of Cleveland for the North Make A Difference Day. Upon arriving, the kitchen leader gave the group an overview of the menu and what duties they had to perform. The group would be preparing a lovely meal of potstickers, rice, chicken, salad, steamed vegetables, and cake. Immediately, the group began cutting up carrots and broccoli for the steamed vegetable side dish. While the group cut the vegetables, one member was separated from the rest; he began searing pot stickers. Once all the broccoli and carrots were cut, the kitchen leader informed the group that they needed to divide the vegetables into a few bowls so they could get seasoned. Once seasoned, the group began a different task: cutting and washing apples for dessert. While the apples were cut, someone else began to work on the cake batter. Upon finishing the batter, the kitchen leader got it into the oven. The group began their short break before prepping for dinner. The kitchen leader gave the group a tour of the Ronald McDonald House. After the tour was finished, the group made final preparations for dinner. One person began stirring the rice and dump it into serving bins. Other people began to move the chicken and potstickers to a different table. The kitchen leader took the apple cake out of the oven and sliced it up. Finally, the salad was taken out of the fridge, put into a bin, and was set next to the other food. After finishing the preparations, the group was able to sample the creation that they made. And thus, Make A Difference Day 2019 came to an end and everyone was happy. (11-26-19)

Central Plans: We will be distributing clothing from the Childhood League Clothing Drive! Date: Saturday, November 16, 2019 Address: 674 Cleveland Avenue. Check out this [flyer](#) for Central MADD with more info! (10-17-19)

South Plans: We will be assisting Cincinnati Parks staff in removing invasive species in Alms Park! Date: Saturday, November 16, 2019 Address: 710 Tusculum Avenue. Take a look at the South MADD [flyer](#) for details! (10-17-19)

South Summary (by South Guber Chloe Constantinides): On November 23 2019, a group of 5 JCLers and one awesome chaperone helped Walnut Hills High School and Cincinnati Parks with their long term project of the beatification of the woody area near the school. The group did two main steps. Firstly we planted and fenced off newly grown trees, and in total the JCL planted nine trees! Lastly, the group uprooted invasive honey suckle. One tree in particular took approximately half an hour to uproot! Overall the event was a success, thanks for everyone who came! (11-26-19)
