

2021 – 2022 Service Summaries

South: Jimmy Fraley

In the South, we met at the California Woods Nature Preserve on Saturday, December 4th. Around 12 OJCLers showed up and worked for around 3 hours to make a big difference. We dug a drainage ditch to prevent a trail from washing away and removed invasive species from a significant portion of the preserve in order to ensure that the preserve can be enjoyed by visitors in the future. Thank you to everyone who attended!

Central: Natalie Allen

Central Make a Difference Day was set on the 13th of November from 8:30 to noon. We helped Columbus Academy with their Kids4Kids family shopping day at the Childhood League Center! This included helping families pick out donations, taking their selected donations to their cars, keeping the room neat, watching after young kids when needed, and restoring the center's gym space at the end. Four people attended.

North: Will Corbin

Books hold the power to expand experiences and propel students forward. Studies have found connection between child literacy and income later in life, but more importantly books can inspire students' imaginations and hopes. At the Northern Make a Difference Day we collected and donated over twenty books to the Cleveland Kids' Book Bank. Thank you to everyone who helped propel children forward.
